

Pediatric **AQUATIC PHYSICAL THERAPY**

**Normalize Muscle Tone,
Improve Strength, Motor Control,
Flexibility, and Sensory Integration**

Ph: 261-4321

Pediatric Aquatic Physical Therapy is a great treatment option for children who are not able to tolerate a land-based treatment program and can benefit from therapy in a safe, heated and comfortable pool setting.

Aquatic Therapy is provided by a certified pediatric aquatic physical therapist. The therapist and support staff designs fun and playful individualized treatment programs specifically for pediatric patients.

*A prescription from a physician
is required to begin treatment.
We accept most insurances.*

Treating Children of All Ages With:

Cerebral Palsy
Down Syndrome
